

COSMETIC PENCILS

1. Identification of the substance / preparation and of the company / undertaking

Identification of the product / Product name: Cosmetic pencils for eyes, lips, skin or nails.

Use of the product: Make-up.

Company / undertaking identification:

Robanda International, Inc.
8260 Camino Santa Fe, Suite A
San Diego, CA 92121
Tel: 800-783-9969
Fax: 619-276-7661

Emergency phone:

2. Composition / Information on ingredients

Lead composed of fats, waxes and pigments, cased in wood or plastic containers, finished with colour paint. Plastic or metallic caps and accessories.

3. Hazards identification

Combustible.

4. First aid measures

After inhalation: Not applicable.

After skin contact: Not necessary.

After eye contact: Not necessary.

After swallowing (large amounts): Do not ingest. Consult a physician.

5. Fire-fighting measures

Suitable extinguishing media: Water in great amounts, CO₂, foam or powder.

Special risks: Combustible.

Special protective equipment for fire fighting: Use self-contained breathing apparatus.

6. Accidental release measures

Personal-related precautionary measures: Do not step on the product, it could be slippery.

Cleaning methods: Sweep the floor. Treat as domestic waste.

7. Handling and storage

Handling: No especial requirements. Consider usual personal hygienic measures.

Storage: Do not expose the product to heat or heat sources. Avoid temperatures over 35°C (95 F).

8. Exposure controls / personal protection

No special care is needed. Consider usual personal hygienic measures.

9. Physical and chemical properties

Form and colour: Cylindrical solid. The colour depends on the decoration.

Melting point: The lead melts over 50 °C (122 F).

Boiling point: Not available.

Ignition temperature: Not available.

Flash point: Above 100°C (212 F).

Explosion limits: Not available.

Solubility in water: Insoluble.

10. Stability and reactivity

Conditions to be avoided: Temperatures over 35°C (95 F) may deform irreversibly the pencil lead.

Substances to be avoided: Not known.

Hazardous decomposition products: Not known.

11. Toxicological information

Acute toxicity: The product is expected to be no toxic (from raw material suppliers information). No experimental data available.

Further toxicological information:

Skin contact: Lead not irritant (DERMATOLOGICALLY TESTED).

COSMETIC PENCILS

Eye contact: Lead not irritant or mild irritant (according to Eytex method), depending on the product.

12. Ecological information

Ecotoxic effects: Quantitative data on the ecological effects of the product are not available.

Further ecological data: The product floats and is insoluble in water. Due to the composition and its water insolubility, the expected biodegradability of the product is very low.

13. Disposal considerations

Product: No special treatment is required. Consider as domestic waste.

14. Transport information

Proper Shipping Name: Non-Regulated. Not hazardous for transport.

Hazard Class: None

UN No.: None

Packing Group: None

15. Ecological information

Neither danger labels nor risk phrases are needed.

16. Other Information

Legal framework for cosmetic products in the European union: Directive 76/768/CEE.

The information contained herein is based on the present status of our knowledge. It characterizes the product with regard to the appropriated safety precautions. It does not represent a guarantee of the properties of the product.
