4. FIRST AID MEASURES

4.A Description of necessary measures:

Inhalation: Prolonged exposure may cause irritation in nose and throat with chest discomfort, coughing and difficulty breathing. Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

Skin: May be irritating to the skin (e.g., rashes, welts, dermatitis) at the site of contact in some sensitive individuals. If skin problems occur, discontinue use. If symptoms persist, call a physician.

Eyes: May be irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If irritation persists, seek medical attention.

Ingestion: If product is swallowed, may cause nausea, vomiting and/or diarrhea. DO NOT INDUCE VOMITING. Contact [REDACTED] or the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration

Unsuitable extinguishing media:

No Information Available

5.B Specific hazards arising from the chemical:

This product is not flammable or combustible

5.C Special protective equipment and precautions for fire-fighters:

As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Avoid spraying water directly into storage containers because of danger of boil over. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies

6. ACCIDENTAL RELEASE MEASURES
