Special protective equipment and precautions for firefighters

In case of major fire and large quantities: Evacuate area. Fight fire remotely due to risk of explosion.

Decomposition will release oxygen, which will intensify a fire.

Closed containers of this material may explode when subjected to heat from surrounding fire.

Cool closed containers exposed to fire with water spray.

As in any fire, self-contained breathing apparatus and full protective gear must be worn.

Firefighting equipment should be thoroughly decontaminated after use.

6. ACCIDENTAL RELEASE MEASURES

Protective equipment and precautions for firefighters

Personal Precautions

Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Avoid breathing vapors.

Protective Equipment

Wear protective gloves/protective clothing, eye protection/ face protection.

Emergency Procedures

Prevent further leakage or spillage if you can do so without risk. Evacuate area of all unnecessary personnel. Ensure adequate ventilation. Eliminate all ignition sources. Avoid generation of vapors.
