MSDS: 02204

Material Safety Data Sheet

Section 1: Identification of the Substance/Preparation and of the Company/Undertaking

Product Name: Encore white Brush-on White Gel MSDS Prepared By: 1/24/2013

Manufacture: Artistic Nail Design, Inc

Nail Alliance – Artistic, Inc, Missouri USA

 Product Use:
 Cosmetics
 Emergency Phone Number:
 (800) 535-5053

Information Contacts: (714)773-9758

Product #s: 02204

Section 2: Hazards Identification

EMERGENCY OVERVIEW

This information is based on findings from related or similar materials.

May be slightly toxic.

May cause moderate skin injury (reddening & swelling).

. May cause chemical burn in eye

Suspect respiratory tract irritation hazards

Potential Health Effects, Signs and Symptoms of Exposure:

Primary Route of Entry No specific information available.

Eye No specific information available. Contains materials that are essentially nonirritating, but contact may cause slight transient irritation. Skin No specific information available. Contains materials that may cause moderate skin injury (reddening and swelling) and/or sensitization.

Prolonged contact may cause blister formation (burns). Since irritation may not occur immediately, contact can go unnoticed.

Ingestion May cause gastrointestinal irritation with nausea, vomiting and diarrhea.

Inhalation No specific information available. Low volatility makes vapor inhalation inlikely. Aerosol can be irritating

Sub-Chronic Effects No specific information available. Limited tests showed no evidence of teratogenicity in animals. A lifetime skin painting study

with mice showed no evidence of carcinogencity.

NOTE: Refer to Section 11, Toxicological Information for Details

Section 4: First Aid Measures

First Aid for Eye Flush with plenty of water for 15 minutes and seek medical attention

First Aid for Skin Remove contaminated clothing and wash contact area with soap and water for 15 minutes.

7631-86-9

81-48-1

First Aid for Inhalation In case of exposure to a high concentration of vapor or mist, remove person to fresh air. If breathing has stopped, administer

artifical respiration and seek medical attention.

Section 5: Fire Fighting Measures

Flash Point (°F/ °C)	Flammable Limit (vol%)	Auto-ignition Temperature (vol%)
> 212°F/100°C estimate	No Data	No Data

Method:

Silica

Violet 2 (CI 60725)

Extinguishing Media: Use carbon dioxide or dry chemical for small fires; aqueous foam or water for large fires.

Fire Fighting Instructions: Remove all ignition sources. Wear self-contained breathing apparatus and complete personal protective equipment when entering

confined areas where potential for exposure to vapors or products of combustion exists.

Unusual Hazards:

High temperatures and fire conditions may cause rapid and uncontrolled polymerization which can result in explosions and the violent rupture of storage vessels or containers. Avoid the use of a stream of water to control fires since frothing can occur.

Section 6: Accidental Release Measures

Spill or Release Producers:

Spontaneous polymerization can occur. Although material in non-flammable please try to eliminate ignition sources.

Use eye and skin protection. Place leaking containers in a well ventilated area.

Dike and recover large spills. Soak up small spills with inert solids (such as vermiculite, clay) and sweep/shovel

into disposal container. Wash spill area with strong detergent and water solution; rinse with water, but minimize water use during clean-up. Do not flush to sewer! US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll free number for the US Coast Guard National Response Center is (800) 424-8802. EU Regulations require the consultation of Directive 98/24/EC. Dispose and report per regulatory requirements if necessary. Please prevent washings from entering waterways.

Section 7: Handling and Storage

Handling:

Avoid contact with skin and eyes. Avoid breathing vapor. Keep container closed when not in use. Avoid prolonged exposure to light. Remove all contaminated clothing, shoes, belts and other leather goods immediately. Incinerate leather goods (including shoes). Wash contaminated clothing thoroughly before reuse. Wash skin thoroughly with soap and water after handling. Solvents should not be used to clean skin because of increased penetration potential.

Most acrylic monomers have low viscosities, thus only needing room temperature conditions to facilitate proper pouring techniques. However, viscous type gels such as these may require heating to facilitate proper pouring techniques. To ensure that this happens product may be heated to 60°C/140°F for not more than 24 hours. Do NOT use localized heat sources such as band heaters to heat/melt product. Do NOT use steam. Hot boxes or hot rooms are recommended for heating/melting material. The hot box and/or room should only be set to a maximum temperature of 60°C/140F. Do not overheat, this may compromise product effectiveness and should be avoided. Refrain from multiple reheating of product, this will also diminishing the quality of the product.

Storage:

Product is extremely light sensitive. If exposed to natural light, LED, UVA, UVB or UV any light, material will cure very quickly. Store in a cool, dry place, away from heat and all types of light. Store at temperatures below 100°F/38°C but above the product's freezing point. If no freezing point is given, keep above 32°F/0°C at all times.

Explosion Hazard

High temperatures and fire conditions may cause rapid and uncontrolled polymerization which can result in explosions and the violent rupture of storage vessels or containers.

Section 8: Exposure Controls / Personal Protection

Engineering Controls

Local exhaust recommended to control exposure which may result from operations generating aerosols and hot operations generating vapors.

Personal Protective Equipment

General:

To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132), or European Standard EN166 be conducted before using this product. Provide eye stations and safety showers. Wear impervious clothing to prevent ANY contact with this product, such as gloves, apron, boots, or whole body suit. Nitrile rubber is better than PVC.

Eye / Face Protection: Chemical splash goggles.
Skin Protection: Impervious gloves (Neoprene)

Respiratory Protection:

A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain limited circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by nuisance level organic vapor dust masks can be used, however the use of the respirator is limited. Follow OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN149.

Section 9: Physical and Chemical Properties

Appearance	Odor & Odor Threshold	pН	Specific Gravity	Viscosity	%Volatile
white viscous gel	characteristic acrylate odor	NA	(H20=1): 1.30	N/DA	By Volume: <0.5

Boiling Point/Freezing Point	Decomposition Temperature	Partitioning Coefficient Log	Vapor Pressure:	Vapor Density	Evaporation Rate	Ignition	Solubility In Water (20°C)

Section 10: Stability and Reactivity

Stability

Incompatibility (Material to Avoid):

Normally Stable

Polymerization initiators including peroxides, strong oxidizing agents, copper, copper alloys, carbon steel, iron, rust

and strong bases.

Hazardous Decomposition Products:

Hazardous Polymerization:

Fumes produced when heated to decomposition may include:

May occur --- Uncontrolled polymerization may cause rapid evolution of heat and increased pressure that could

decomposition may include: result in violent rupture of sealed storage vessels or containers. carbon monoxide, carbon dioxide

Conditions to Avoid:

Storage>100°F, exposure to light, loss of dissolved air, loss of polymerization, contamination with incompatible materials.

Section 11: Toxicological Information

Acute Oral Toxicity	Acute Dermal Toxicity	Acute Inhalation Toxicity	Irritation - skin	Irritation - Eye
No information available	No information available	No information available	No information available	No information available

Since this product contains a very low concentration of active components, the primary toxicological information is derived from oligomers. Further hazardous properties cannot be excluded. The product should be handled with care when dealing with chemicals.

Sensitization	Mutagenicity	Sub-chronic Toxicity
N/DA	N/DA	N/DA

Ecotoxicological Information

Acute Toxicity to Fish	Acute Toxicity to Invertebrates	Acute Toxicity to Algae	Bioconcentration	Toxicity to Sewage Bacteria		
N/DA	N/DA	N/DA	N/DA	N/DA		
Chemical Fate Information						
Biodegradability	N/DA					
Chemical Oxygen Demand	N/DA					

To the best of our knowledge, the ecotoxocological and chemical fate properties have not been thoroughly investigated.

Acute Toxicity to

Do not allow to enter drinking water supplies, wastewater, or soil.

Page 2 of 4

Section 13: Disposal Considerations

Non-contaminated, properly inhibited product is not a RCRA hazardous waste. It is the generators responsibility to determine what is classified as a hazardous waste. Comply with all federal, state, and local regulations. Dispose of diking materials and absorbent in compliance with State, Local, and Federal regulations. Residual vapors may explode on ignition; do not cut, drill, or weld on or near the container. Mix with compatible chemical which is less flammable and incinerate.

Labeling according to EC Directives - 1999/45/EC

European Community:

Gelish Hard LED Gels:

- HAZARD SYMBOLS: Xi: Irritant
- RISK PHRASES: R22 Irritant if swallowed, R36/38 Irritant toi eyes and Skin, R43: May cause sensitization by skin contact.
- SAFETY PHRASES: \$24/25: avoid contact with skin and eyes, \$18 Handle and open contaioner with care

\$36/37: Wear suitable protecting clothing and n gloves,

\$38: In case of insuficeinte ventilation, wear suitable respiratory equipment

Section 16: Other Information

EU Classes and Risk / Safety Phrases for Referenced Ingredients (See Section 2):

Hazard Symbols:

Xi - Irritants

Xn- Harmful substance or preparation Risk Phrases:

R36/37/38 Irritating to eyes, respiratory system and skin Irritating to eyes and skin R36/38

R38 Irritating to skin

R40 Limited evidence of a carcinogenic effect

Safety Phrases:

S3/7 Keep container tightly closed in a cool place;

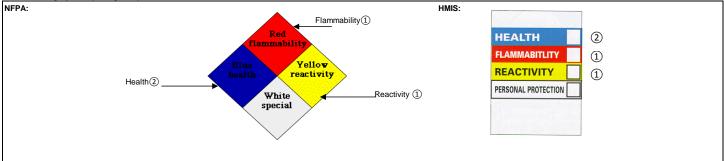

S21 when using do not smoke; S24/25 Avoid contact with skin and eyes; S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice;

S36 Wear suitable protective clothing

S37 Wear suitable gloves; S41 In case of fire and/or explosion do not breathe the fumes

S62 If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

Hazard Rating System (Pictograms)

OSHA PEL for nuisance dust: 15 mg/m³ (total dust)

5 mg/m3 (respirable dust)

ACGIH PEL for nuisance dust: 10 mg/m³
