General information: If you feel unwell, seek medical advice (show the label where possible). Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes. Keep away from sources of ignition. No smoking. Keep out of reach of children.

5. Fire prevention Measures

Suitable extinguishing media: Dry chemical. Carbon dioxide. Foam.

Unsuitable extinguishing media: Do not use water jet.

Specific hazards arising from the chemical: During fire, gases hazardous to health may be formed. Firefighters should wear a self-contained breathing apparatus.

Special protective equipment and precautions for firefighters: Firefighters should wear full protective clothing including self contained breathing apparatus. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire-fighting equipment/instructions: In case of fire and/or explosion do not breathe fumes. In the event of fire, cool tanks with water spray. Move containers from fire area if you can do so without risk.

Specific methods: Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards: Flammable solid.

Hazardous combustion products: May include and are not limited to: Oxides of carbon. Explosion data Sensitivity to mechanical impact – Not available. Sensitivity to static discharge- Not available.

6. Accidental spillage Measures

Personal precautions,protective equipment and emergency procedures:

Wear appropriate protective equipment and clothing during clean-up. Avoid contact with eyes. Ventilate closed spaces before entering them. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up:

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Before attempting clean up, refer to hazard data given above. Small spills may be absorbed with non-reactive absorbent and placed in suitable, covered, labelled containers. Prevent large spills from

entering waterways. Contact emergency services and supplier for advice. Large Spills: Following product recovery, flush area with water. Wipe or mop up liquid, if any, and dispose properly.

Environmental precautions: Do not discharge into waterways.

7. Handling and Storage

Storage conditions: Store in door at room temperature. If possible, preferably around 18°C (64.4°F). Store out of direct sunlight. Store in a closed container away from incompatible materials. Store in a well-ventilated place. Keep away from heat, open flames or other sources of ignition. Store away from incompatible materials (see Section 10 of the SDS). Keep this out of reach of children unless under adult supervision

General Handling Precaution: Handle in accordance with good occupational hygiene and safety practices. Keep away from fire or flame. Do not use in contact with eyes. For external use only. Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Avoid prolonged exposure. Keep container closed. Use according to package label instructions.

10. Stability and Reactivity

The product is stable in normal use and storage conditions and does not decompose if use following the prescribed techniques.

Product decomposition danger: none.
Dangerous reactions: none.
None flammable.
None Corrosive.

Chemical Stability: stable under standard conditions
Incompatibility With Other Materials: keep away from alkaline ingredients, strong oxidizing agents.
Hazardous Decomposition Products: N/A
Hazardous Polymerization: none

11. Toxicological Information

For external use only.
There have been no noted dangerous health effects caused by exposure to the product.
In any case, it is recommended to operate following the industrial health regulations.
May cause physical abrasion in contact with eyes.

12. Ecological Information
