If directions for use not followed correctly and applied too hot this may cause burns in which case flush with or immerse in cold water. Seek medical attention for burns. Inhalation: If respiratory symptoms develop whilst using molten material remove patient from area of exposure into fresh air. If symptoms persist, seek medical advice. 4.2. Medical Attention And Special Treatment First Aid Facilities: A source of clean water should be available in the work area for flushing eyes and skin. Comments: A source of clean water should be available in the work area for flushing eyes and skin. Done 5. FIRE FIGHTING MEASURES 5.1. Suitable extinguishing media: Dry chemical, carbon dioxide, foam or water may be used. Do not use straight streams of water on burning material. Sand / earth can be used on small fires. 5.2. Hazards from combustion products: During a fire irritating and toxic gases maybe produced by combustion or thermal decomposition. Move exposed containers from fire areas if possible. When fighting fires involving significant quantities of this product, fire fighters should wear safety footwear, non-flammable gloves, overalls, hat, goggles and self-contained breathing apparatus. 6. ACCIDENTAL RELEASE MEASURES 6.1. Emergency procedures: None Remains in solid form under normal conditions, pick up or sweep spilled product. If molten, allow to cool and scrape up. 7. HANDLING AND STORAGE 7.1. Precautions for and hands		
is wearing contact lenses, remove them prior to flushing. Seek medical advice if discomfort persists. Skin: May cause temporary local redness after application. Discontinue use if irritation occurs, seek medical attention if discomfort persists. If directions for use not followed correctly and applied too hot this may cause burns in which case flush with or immerse in cold water. Seek medical attention for burns. Inhalation: If respiratory symptoms develop whilst using molten material remove patient from area of exposure into fresh air. If symptoms persist, seek medical advice. 4.2. 9 ΡΗΥΣΙΓΔΙ Δ	ND CHEMICAL PROPERTIES
9.1. Appearance:	Blue with a shimmer Semi-Viscous Tacky Resin
9.2. Odour:	Characteristic of baby fragrance
9.3. pH:	6.0 (1% solution)
9.4. Vapour Pressure:	Not known
9.5. Vapour density:	Not known
9.6. Boiling point/range:	160oC
9.7. Melting point:	40 oC
9.8. Solubility in water:	Insoluble
9.9. Specific gravity:	0.965
9.10. Flammable materials information:	
flash point and method of detecting flash point;	Not applicable
upper and lower flammable (explosive) limits in air;	Not determined
and	
ignition temperature.	Not determined
9.11. Viscosity at room temperature:	Solid
9.12. Percent volatile:	0.25%
9.12. Percent volatile: 0.25% 10. STABILITY AND REACTIVITY	
10.1. Chemical Stability:	Stable under normal conditions
10.2. Conditions to avoid:	Avoid contact with strong oxidizing agents
10.3. Incompatible materials:	Avoid contact with strong oxidizing agents
10.4. Hazardous decomposition products:	Combustion may yield large amounts of oxides of carbon, smoke,
20111111111111111111111111111111111111	incomplete combustion products, flammable hydrocarbons.
10.5. Hazardous reactions:	None known
11. TOXICO	DLOGICAL INFORMATION
11.1. Likely routes of exposure:	Skin, eyes, inhaled.
11.2. Health effects from the likely routes of exposure:	
11.2.1. Acute	No specific toxicological data is available.
Ingestion:	Product may induce nausea.
Eye:	May cause abrasive irritation to the eyes if they come into
	contact with the product.
Skin:	Not expected to be an irritant but may cause temporary local
	redness after application.
Inhalation:	When heated, the vapour/fumes given off may cause respiratory
	tract irritation.
11.2.2. Chronic	No long term effects are known.
11.3. Other Information:	None
	OGICAL INFORMATION
12.1. Ecotoxicity:	Not expected to be harmful to aquatic or terrestrial organisms.
12.2. Persistence and degradability:	Expected to be persistent.
12.3. Mobility:	Expected to partition to sediment and wastewater solids.
	Minimally volatile.
	DSAL CONSIDERATIONS
13.1. Disposal methods and containers:	Dispose the waste as a non-hazardous organic solid according to
	local and state regulations.
	Contact relevant authority for details. No special considerations
	for containers.
13.2. Special precautions for landfill or incineration:	As above
