# Safety Data Sheet

## Hold.ME Hair Mist

### Signal word

### Warning

#### Hazard statement(s)

Causes serious eye irritation  
May cause respiratory irritation  
May cause drowsiness or dizziness  
Flammable liquid and vapor

#### Precautionary statement(s)

**Prevention** Avoid breathing dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear eye protection/face protection/protective gloves. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

**Response** IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Call a poison center or doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. In case of fire: Use dry sand, dry chemical or alcohol resistant foam to extinguish.

**Storage** Store in a well-ventilated place. Keep container tightly closed. Store locked up. Store in a well-ventilated place. Keep cool.

**Disposal** Dispose of contents/container to an approved waste disposal plant.

## SECTION 3: Composition/information on ingredients

### 3.2 Mixtures

#### Components

| Component                                                                                                                                                                                                                                                                                                                                                                                                                                                               | CAS no.           | Concentration      |

### Trade secret statement (OSHA 1910.1200(i))

\*The specific chemical identities and/or actual concentrations or actual concentration ranges for one or more listed components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i).

## SECTION 4: First-aid measures

### 4.1 Description of necessary first-aid measures

|                         |                                                                                                                                                                                                                                                                          |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice          | In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).                                                                                                                                                       |
| If inhaled              | Remove to fresh air and promote deep breathing. Get medical attention if effects persist.                                                                                                                                                                                |
| In case of skin contact | Wash with plenty of soap and water. Get medical attention if irritation develops or persists. Take off contaminated clothing and wash it before reuse.                                                                                                                   |
| In case of eye contact  | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists, get medical attention.                                                                                                      |
| If swallowed            | Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. |

### 4.2 Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

### 4.3 Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically and supportively.

## SECTION 5: Fire-fighting measures

### 5.1 Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

### 5.2 Specific hazards arising from the chemical

Carbon oxides.

### 5.3 Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

### Further information

Use water spray to cool unopened containers.

---

## **SECTION 6: Accidental release measures**

### **6.1 Personal precautions, protective equipment and emergency procedures**

Not normally required when cleaning up small spills; however, keep containers tightly closed when not in use and eliminate ignition sources. Use non-sparking tools if cleanup tools are needed and take care to avoid static discharges. Surfaces can be slippery, especially if water is used during cleanup.

**Bulk handling and large spills:** When handling in bulk quantities or responding to significant releases, use personal protective equipment as described in Section 8. Do not get in eyes, on skin, or on clothing. Ensure adequate ventilation and evacuate personnel to a safe area. **Follow fire and explosion precautions:** keep containers tightly closed, ground and bond container and receiving equipment, use explosion-proof electrical/ventilating/lighting equipment, use only non-sparking tools, and take action to prevent static discharges.

### **6.2 Environmental precautions**

Not required for normal use. Do not discharge product into natural waters without pre-treatment or adequate dilution.

### **6.3 Methods and materials for containment and cleaning up**

Contain the spill if it can be done safely. Eliminate all ignition sources and ensure adequate ventilation. For small spills, soak up with inert absorbent material (e.g., sand, vermiculite) using non-sparking tools and place in suitable, tightly closed containers for disposal. For larger spills or bulk handling, ground and bond all containers and equipment, use explosion-proof electrical/ventilating/lighting equipment, and take action to prevent static discharges. Dispose of collected material and contaminated absorbents in accordance with applicable local, state, and national regulations.

#### **Reference to other sections**

For disposal see section 13.

---

## **SECTION 7: Handling and storage**

### **7.1 Precautions for safe handling**

Avoid contact with skin and eyes. Do not eat, drink or smoke while handling. Wash hands with soap and water after handling. Keep out of the reach of children. For precautions see section 2.

### **7.2 Conditions for safe storage, including any incompatibilities**

Keep containers tightly closed in a cool, dry, well-ventilated area away from heat, sparks, open flames, and hot surfaces. Keep out of the reach of children. Store away from incompatible materials such as strong oxidizing agents, acids, and bases.

In workplace settings, store in approved flammable-liquid containers. Containers that are opened must be carefully resealed and kept upright to prevent leakage. When transferring material, ground and bond containers and receiving equipment. Use explosion-proof electrical, ventilating, and lighting equipment in storage areas if required. Protect against static discharge.

#### **Specific end use(s)**

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

---

## **SECTION 8: Exposure controls/personal protection**

### **8.1 Control parameters**

Safety Data Sheet  
Hold.ME Hair Mist

CAS: 64-17-5

Alcohol  
Cal/OSHA (US): 1000 ppm PEL inhalation [Ethyl alcohol (Ethanol)]; NIOSH (US): 1000 ppm REL inhalation [Ethyl alcohol (Ethanol)]; US/OSHA (US): 1000 ppm PEL inhalation [Ethyl alcohol (Ethanol)]; 1900 mg/m3 PEL inhalation [Ethyl alcohol (Ethanol)]

8.2 Appropriate engineering controls

None required with normal household use. When handling in bulk quantities, use ventilation adequate to keep exposures below recommended exposure limits.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

None required with normal household use. When handling in bulk quantities, use appropriate safety goggles.

Skin protection

None required with normal household use. When handling in bulk quantities, use protective gloves.

Body protection

None required with normal household use. When handling in bulk quantities, wear protective clothing.

Respiratory protection

None required with normal household use. When handling in bulk quantities, use approved respiratory protection.

Thermal hazards

No data available.

Environmental exposure controls

No data available.

SECTION 9: Physical and chemical properties

Basic physical and chemical properties

|                                                          |                                                                                           |
|----------------------------------------------------------|-------------------------------------------------------------------------------------------|
| Physical state                                           | Liquid                                                                                    |
| Appearance                                               | Clear - hazy                                                                              |
| Color                                                    | Colorless                                                                                 |
| Odor                                                     | No data available.                                                                        |
| Odor threshold                                           | No data available.                                                                        |
| Melting point/freezing point                             | No data available.                                                                        |
| Boiling point or initial boiling point and boiling range | No data available.                                                                        |
| Flammability                                             | Flammable                                                                                 |
| Lower and upper explosion limit/flammability limit       | No data available.                                                                        |
| Flash point                                              | Estimate: 18–22 °C (64–72 °F) [Closed Cup] (based on ethanol /fragrance flashpoint data). |
| Explosive properties                                     | No data available.                                                                        |
| Auto-ignition temperature                                | No data available.                                                                        |
| Decomposition temperature                                | No data available.                                                                        |
| Oxidizing properties                                     | No data available.                                                                        |
| pH                                                       | No data available.                                                                        |
| Kinematic viscosity                                      | No data available.                                                                        |
| Solubility                                               | No data available.                                                                        |

## Hold.ME Hair Mist

|                                                   |                    |
|---------------------------------------------------|--------------------|
| Partition coefficient n-octanol/water (log value) | No data available. |
| Vapor pressure                                    | No data available. |
| Evaporation rate                                  | No data available. |
| Density and/or relative density                   | No data available. |
| Relative vapor density                            | No data available. |
| Particle characteristics                          | No data available. |

### Supplemental information regarding physical hazard classes

No data available.

### Further safety characteristics (supplemental)

No data available.

---

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Contact with incompatible materials. Sources of ignition. Exposure to heat.

Stable under recommended storage conditions.

### 10.2 Chemical stability

Stable under normal storage conditions.

### 10.3 Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

### 10.4 Conditions to avoid

Heat, flames and sparks. Incompatible products. Keep away from open flames, hot surfaces and sources of ignition.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

No data available

---

## SECTION 11: Toxicological information

### Information on toxicological effects

#### Acute toxicity

Likely Routes of Exposure: Eye contact. Skin contact. Inhalation. Ingestion.

Acute and delayed symptoms and effects from inhalation, skin and eye contact and ingestion are listed in Section 4.

Citronellol

LD50 Oral - Rat - 3,450 mg/kg

LD50 Skin - Rabbit - 2,650 mg/kg

Linalool

LD50 Oral - Rat - 2,790 mg/kg

LD50 Skin - Rabbit - 5,610 mg/kg

Linalyl acetate

LD50 Oral - Rat - 13,934 mg/kg

# Safety Data Sheet

## Hold.ME Hair Mist

### **Skin corrosion/irritation**

No data available.

### **Serious eye damage/irritation**

No data available.

### **Respiratory or skin sensitization**

Not expected from normal use. Discontinue use if you experience any skin irritation.

Workplace/bulk handling exposure : May cause an allergic skin reaction.

### **Germ cell mutagenicity**

No data available.

### **Carcinogenicity**

No data available.

### **Reproductive toxicity**

No data available.

### **Summary of evaluation of the CMR properties**

No data available.

### **Specific target organ toxicity (STOT) - single exposure**

No data available.

### **Specific target organ toxicity (STOT) - repeated exposure**

No data available.

### **Aspiration hazard**

No data available.

### **Additional information**

No data available.

---

## **SECTION 12: Ecological information**

### **Toxicity**

No data available on product.

### **Persistence and degradability**

No data available on product.

### **Bioaccumulative potential**

No data available on product.

### **Mobility in soil**

No data available on product.

### **Results of PBT and vPvB assessment**

No data available on product.

### **Endocrine disrupting properties**

No data available on product.

### **Other adverse effects**

No data available on product.

### SECTION 13: Disposal considerations

#### Disposal methods

##### Product disposal

Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

##### Packaging disposal

Dispose of as unused product.

---

### SECTION 14: Transport information

#### DOT (US)

UN Number: UN1170

Class: 3

Packing Group: III

Proper Shipping Name: Ethanol solution

#### IMDG

UN Number: UN1170

Class: 3

Packing Group: III

EMS-No: F-E,S-D

Proper Shipping Name: Ethanol solution

#### IATA

UN Number: UN1170

Class: 3

Packing Group: III

Proper Shipping Name: Ethanol solution

---

### SECTION 15: Regulatory information

#### 15.1 Safety, health and environmental regulations specific for the product in question

##### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

##### Massachusetts Right To Know Components (105 CMR 670)

Chemical name: Alpha-pinenes

CAS number: 80-56-8

Chemical name: Denatured alcohol

CAS number: 64-17-5

##### New Jersey Right To Know Components

Common name: Alpha-pinenes

CAS number: 80-56-8

Common name: Limonene

CAS number: 138-86-3

Common name: Alcohol denatured

CAS number: 64-17-5

##### Pennsylvania Right To Know Components

Chemical name: Alpha-pinenes

# Safety Data Sheet

## Hold.ME Hair Mist

CAS number: 80-56-8

Chemical name: Alcohol denatured  
CAS number: 64-17-5

### SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

### SARA 311/312 Hazards

Fire Hazard, Acute Health Hazard.

### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

### US EPA TSCA public inventory

Chemical name: Tetramethyl acetyloctahydronaphthalenes  
CAS number: 54464-57-2

Chemical name: Limonene  
CAS number: 138-86-3

Chemical name: L-carvone  
CAS number: 99-49-0

Chemical name: Linalyl acetate  
CAS number: 115-95-7

Chemical name: Alpha-pinenes  
CAS number: 80-56-8

Chemical name: Linalool  
CAS number: 78-70-6

Chemical name: Terpineol  
CAS number: 8000-41-7

Chemical name: Citronellol  
CAS number: 106-22-9

Chemical name: Geranyl acetate  
CAS number: 105-87-3

Chemical name: Alcohol denatured  
CAS number: 64-17-5

## 15.2 Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

---

## SECTION 16: Other information

### 16.1 Further information/disclaimer

DISCLAIMER: The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigation to determine the suitability of information for their particular purposes. In no event shall SV Labs be liable for
