## 6. Accidental Release Measures

**6.1 Personal precautions, protective equipment and emergency procedures**  
Use personal protective equipment.

**6.2 Environmental precautions**  
Should not be released into the environment. Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

**6.3 Methods and materials for containment and cleaning up**  
**Small Spill:** Absorb with an inert material and put the spilled material in an appropriate waste disposal.  
**Large Spill:** Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

**Subject:** RE: SDS NIGHT SERUM

Hi Stephanie,

I was trying to reach you regarding the Night Serum and I have left you a voicemail.

The SDS does not need to be modified to be able to send these out. Since the actual bottle is under 5L and a master case is less than 30kg we can ship those as limited quantities.

Here is what you can add on each box to be able to ship it. You can use one of the points below:

*Until December 31, 2020, instead of being marked with the mark illustrated in subsection (5), a means of containment may have displayed on it*

- (a) the words "Limited Quantity" or "quantité limitée";*
- (b) the abbreviation "Ltd. Qty." or "quant. limitée";*
- (c) the words "Consumer Commodity" or "bien de consommation"; or*
- (d) the UN number of each limited quantity of dangerous goods preceded by the letters "UN", placed within a square on point.*

Please feel free to contact me if you have any questions.

Thank you

Hi Jonathan

Thank you for getting back to us with the below response. Is it possible to update the SDS sheet to specify "Consumer Commodity up to 5 liters" under the transportation section? Then if anyone comes back to state otherwise, we can provide the information?

Thanks and have a great day.

Hi Nathalie

On the SDS sheet it says that UN # is 3082 "environmentally hazardous substance liquid". We need to confirm that the SDS sheet is correct as well as there is no labeling on the master cases with the UN #. For now, this product can not be shipped from our warehouse because we don't have the appropriate labels to ship it out.

Not sure if this is something you can help with, if not, please send along to whomever may be able to help.

Thanks
